

Satisfy Your Basic Life Support (BLS) Training Requirements Competently & Cost Efficiently

Introducing Emergency University's Blended BLS Training Solution

Emergency University's Healthcare Professional BLS Training Package is a comprehensive, rich, multimedia resuscitation program that includes Adult CPR, Obstructed Airway, Child/Infant CPR, and AED training courses. Each course contains training, practice and testing.

1

Trainees self register online into Emergency University's online BLS Training Course.

2

Trainees complete self-paced, interactive, multi-media BLS Training Course.

3

Onsite instructor verifies competency of BLS skills.

4

Online training and testing, BLS skills verifications, and certification dates are tracked in EU's MAESTRO™ LMS.

5

Trainees receive their nationally recognized certification cards from Emergency University valid for 2 years.

Medical Foundation's BLS Training Costs Savings
