

Your Corporate Emergency Response Solution in the Palm of Your Hand!

Alerting and Directing the right people at the right time!

Launch your emergency response plan with a touch of the screen

- Pinpoint the exact location of the emergency.
- Immediately ALERT all trained responders and key personnel.
- Company-specific step-by-step protocols transmitted to Incident commanders, ERT members and security team.

Directions to operational-ready equipment

- Locate the closest operational AED, fire extinguisher, first aid kit or emergency cache.

Evacuation instructions relayed to the entire workforce

- In the event of major incident, your workforce will receive immediate notification and evacuation instructions.

Real-time tracking of workforce evacuation

- Monitor the exact location of each employee during evacuation.
- See at a glance whether your workforce has been safely evacuated.
